

Professional information for CBD MILK CHOCOLATE

COMPLEMENTARY MEDICINE: WESTERN HERBAL MEDICINE

This unregistered medicine has not been evaluated by SAHPRA for its quality, safety or intended use.

SCHEDULING STATUS

S0

1 NAME OF THE MEDICINE

CBD MILK CHOCOLATE bar.

2 QUALITATIVE AND QUANTITATIVE COMPOSITION

Each 100 g bar contains:

Cannabis sativa L. (CBD isolate) 20 mg

[hemp leaves and flowers, standardised to 99,9 % cannabidiol isolate]

Contains 51,6 g sugar.

For a full list of excipients, see section 6.1.

3 PHARMACEUTICAL FORM

Bar.

A light brown milk chocolate bar.

4 CLINICAL PARTICULARS

4.1 Therapeutic indications

CBD MILK CHOCOLATE may assist with general health and well-being.

4.2 Posology and method of administration

Take one bar daily.

Do not exceed the maximum daily dose of one bar daily.

4.3 Contraindications

Hypersensitivity to any of the active ingredients or to any of the excipients listed in section 2 or 6.1.

4.4 Special warnings and precautions for use

- CBD MILK CHOCOLATE contains 51,6 g of sugar per bar. This should be taken into account in patients with diabetes mellitus.
- Patients with rare hereditary problems of fructose intolerance or glucose-galactose malabsorption should not take CBD MILK CHOCOLATE.
- CBD MILK CHOCOLATE may worsen the symptoms of Parkinson's disease in some patients. Caution is advised for patients suffering from Parkinson's disease.

4.5 Interaction with other medicines and other forms of interaction

CNS depressants:

CBD MILK CHOCOLATE can have CNS depressant effects which might be enhanced by concomitant use with medicines and herbal supplements with sedative properties.

Cytochrome P450 substrates:

CBD MILK CHOCOLATE may increase the levels of medicines that are metabolised by CYP3A4 and increase their effects and adverse effects. Medicines that may be affected include propranolol, losartan, diltiazem, nifedipine, verapamil, ketoconazole and itraconazole.

4.6 Fertility, pregnancy and lactation

Safety in pregnancy and lactation has not been established. CBD MILK CHOCOLATE should not be used during pregnancy or lactation.

4.7 Effects on ability to drive and use machines

CBD MILK CHOCOLATE may cause side effects such as drowsiness and can affect the ability to drive a vehicle and use machines (see section 4.8).

Caution is advised before driving a vehicle or operating machinery until the effects of CBD MILK CHOCOLATE are known.

4.8 Undesirable effects

CBD MILK CHOCOLATE is generally well tolerated.

Psychiatric disorders:

Frequent: drowsiness.

Gastrointestinal disorders:

Frequent: nausea, vomiting, diarrhoea, gastrointestinal irritation.

Reporting of suspected adverse reactions

Reporting suspected adverse reactions after authorisation of the medicine is important. It allows continued monitoring of the benefit/risk balance of the medicine. Healthcare providers are asked to report any suspected adverse reactions to SAHPRA via the “6.04 Adverse Drug Reactions Reporting Form”, found online under SAHPRA’s publications:

<http://www.sahpra.org.za/Publications/Index/8>

4.9 Overdose

In overdose, side effects can be precipitated and/or be of increased severity (see section 4.8).

5 PHARMACOLOGICAL PROPERTIES
